

Care Plus Group (CPG) Community Governors

Care Plus Group is a social enterprise providing health and care services for the local community to support people to achieve their best quality of life. Further information about our work can be found on our website www.careplusgroup.org

The Care Plus Group Council of Governors is looking to further develop its links with other local community organisations and is inviting nominations from people interested in serving as a Community Governor to work alongside Staff Governors and provide a link with the local community.

We currently have three Community Governor vacancies; these are unpaid, voluntary positions for a period until our Annual Members Meeting in 2027. We are looking for a variety of people with different interests to represent a cross-section of Care Plus Group services and the community.

The Council of Governors usually meet on a Thursday afternoon every two months. An application pack is available which details the dates and further information on the role and its requirements. If any of your members would like an application pack or to discuss the opportunity further, please contact CPG.COG@nhs.net The closing date for nominations is 3 pm on Wednesday 30 April 2025.

We very much hope that your organisation will have members who are interested in putting their name forward.
